Con 04/05

PROJECT INFORMATION

Purpose & Need for the Project:

Project Need:

The City of Shasta Lake is constructing new
sidewalks and installing pedestrian safety lighting
using HES program money. Additional pedestrian
enhancements would provide a more attractive
facility for pedestrians along SR 151.

Project Purpose:

To add enhancements to a job being done by the
City of Shasta Lake on SR 151. Additional street
trees will provide shade. Decorative street light
poles will be more attractive than standard
illuminare poles. Decorative concrete will
enhance sidewalks and crosswalks, making these
facilities easier to see by both pedestrians and
vehicles.
